

NEW MEDICAL PRINTERS

UP-D898MD/ UP-X898MD

SUCCEEDING UP-897SERIES

HOW TO USE THE NEW PRINTERS WITH THE UP-D897 DRIVER ?

Description

The UP-D898MD and UP-X898MD feature a legacy mode driver mode. In this mode, both printers identify themselves as UP-D897 via the USB interface. This enable the use of both printers with the printer driver of UP-D897. Through this feature both models can be used to easily replace existing UP-D897 units in the field

Configuration

- Enter in the Menu by pushing the joystick key
- Display "DIGITAL" by shifting the up or down the joystick key
- Push the joystick key to enter in the sub menu
- Display "DRIVER" by shifting the up or down
- Push the joystick key to enter in the sub menu
- Select "DRV:897" to use the driver of UP-D897
